HERITAGE

I received the attached letter of August 3rd, plus the sub-Committee's Report, which I forwarded to Keith Joseph for his comments before putting it to you. Subsequently Geoffrey wrote again, on 8th August, and Adam Ridley commented.

For his part, Keith will have a word with Geoffrey on his return from China.

I agree with the idea of selectively publicising the proposals, once agreed. Preserving the Heritage can well proceed alongside reconstructing the economy.

*An happy that this report should  
be an indication of our way  
forward - subject to achievement of  
our main objectives on the economy.  
I expect that the cost would be  
minimal in any event  
and.*
