10 DOWNING STREET

THE PRIME MINISTER

7 August 1981

Dear John,

When you return from holiday would you very kindly call my office (Caroline Stephens on 930 4433) to arrange when you could come in and see me. I am due to make the Menzies Lecture in Australia at the beginning of October and I would be grateful for your assistance.

I have in mind to do a philosophical and economic justification of present policies, and to show why the positions of the Post. didn't work. In the end good economics comes down to understanding both the best and the worst in human nature in both - Younger
