

PRIME MINISTER

Sitrep on this morning's action

The origin of this sitrep is a verbal report by C-in-C Fleet.

All the aircraft are OK. One Sea Harrier was holed by a shell but returned to the Carrier. The Vulcan cratered the middle of the run-way and the Harriers cratered either end of it. The Goose Green planes and dummies were destroyed. Argentine Mirage jets were airborne but were never in a position to attack (presumably shortage of fuel).
