OPERATION CORPORATEITEM 1. INTELLIGENCE

1. SIR TERENCE LEWIN invited the Deputy Chief of the Defence Staff (Intelligence) to update them on current intelligence.
2. LIEUTENANT GENERAL GLOVER (Deputy Chief of the Defence Staff (Intelligence)) reviewed the intelligence published in the latest summary (1). He said that he would publish a revised assessment of the Argentine order of battle and deployment in the Falkland Islands that day.
3. Summing up a short discussion, SIR TERENCE LEWIN said they would wish to invite the Foreign and Commonwealth Office in conjunction with the Deputy Chief of the Defence Staff (Intelligence) to produce a quick assessment of the latest intelligence on Argentine naval operations for consideration by OD(SA) that afternoon.

ITEM 2. OWN FORCES

4. The situation was set out in the Force Tote Sitrep (2).

ITEM 3. ACTIONS AND DECISIONS REQUIRED

5. The Committee noted the summary of actions in hand (3).
6. REAR-ADMIRAL BROWN (Assistant Chief of the Defence Staff (Operations)) informed the Committee that Rules of Engagement for use against Argentine fishing or merchant vessels engaged in surveillance operations had now been formulated (4).

Note:

1. INTSUM No 52 300600Z April 1982.
2. Force Tote Sitrep Issue 36.
3. Annex A to COS 35th Meeting/82.
4. MODUK AAA/19F/JEE 292009Z April 82.

ITEM 4. SOUTH GEORGIA AIRSTRIP

7. The Committee had before them a paper (5) examining the requirement for and feasibility of constructing an airstrip on South Georgia.

8. Summing up a short discussion, SIR TERENCE LEWIN said the need for such an airstrip had not yet been established. They would wish to take no action on it at present.

ITEM 5. DEFENCE OF ASCENSION ISLAND

9. REAR-ADMIRAL BROWN (Assistant Chief of the Defence Staff (Operations)) reported on the possible need to defend Ascension Island from Argentine attack. He said a small reconnaissance team was going to Ascension Island that day. Meanwhile small arms had been despatched to the island for about 400 of the 600 British servicemen there; adequate air defence was available from RN ships until 5 May; and an early warning radar detachment had been placed at 48 hours notice to move.

10. Summing up a short discussion, SIR TERENCE LEWIN said they would wish to instruct the Assistant Chief of the Defence Staff (Operations) to obtain a signalled report from the reconnaissance party and report to them further on Sunday 2 May 1982.

ITEM 6. FALKLAND ISLANDS LANDING OPERATIONS - REINFORCEMENTS

11. The Committee discussed a revised draft OD(SA) paper (6).

12. Summing up SIR TERENCE LEWIN said they would wish to instruct their Secretary to amend the paper in the light of their discussion and then forward it to the Cabinet Office for consideration by OD(SA) that afternoon.

ITEM 7. MOVEMENT OF 5 BRIGADE TO THE FALKLAND ISLANDS

13. The Committee had before them a paper (7) setting out the movement options should it be decided to send 5 Brigade to join the Task Force.

Notes:

5. Attachment to COS(Misc) 179/742/1 dated 30 April 1982.
6. COS 35th Meeting/82 Item 7.
7. COS(Misc) 181/742/1 dated 30 April 1982.

14. In discussion the following points were agreed:
- a. It should be assumed the "slimline" Brigade, omitting most of its cargo vehicles and heavy support, would be required. The Brigade was currently at 7 day's notice to move.
 - b. The Queen Elizabeth 2 (Option 2) could delay sailing until 12 May and still arrive at the Falkland Islands on 28 May at the same time as the ships carrying the equipment.
 - c. Although notice for the troops need not be changed before 5 May, equipment and stores depots would need to start unloading on Monday 3 May. Therefore a decision had to be taken on Sunday 2 May if the arrival of the Brigade and its equipment in the Falkland Islands was not to be delayed.
 - d. Careful consideration would have to be given to the protection of the convoy on passage, particularly once it had passed Ascension Island.
 - e. If it was decided to send the Brigade, the public relations line should be that the move was being made to position reserves nearer the operational area.
