

Terry Colmer (MAFF) rang about the Thames TV programme on Euro Frauds which is being shown tonight. MAFF line is that they cannot put a figure on the actual extent of the problem. But, yes, they know that there are a number of frauds and irregularities continuing within the Community. They have, over the years, constantly been drawing attention to this in the relevant Councils and special committees to the Commission. (He mentioned a few particular cases such as the "rice-roundabout" and pigs to Ireland).
