MEMORANDUM

To Mr. Thomas,.....

From Miss Maxse,.....

19th February, 1949.

Miss Margaret H. Roberts.

I attach herewith Miss Roberts' candidate's form, duly completed; also a brief record of her qualifications, as she is trying desperately to find another job.

We ought to try and help her over this, but unfortunately my knowledge of chemical and industrial research openings is nil. Do you think Lord Woolton would be able to help on this?
