

That if ~~we~~ we can now afford
to spread the burden of 'allow
money' that to have people with each
month money to look for themselves

That depends on ~~it~~ ~~is~~ ~~not~~ ~~possible~~

~~That~~ The thing that having decided now pay
you - how much you can give you
concerned directly by the amount that
you are not prepared to pay for.

Nov - the whole

So - I need explain that we have within
our means - ~~which~~ ~~part~~ ~~of~~ ~~the~~ ~~money~~ ~~to~~ ~~pay~~ ~~for~~
living costs of that market ~~which~~
very much ~~is~~ ~~of~~ ~~the~~ ~~same~~ ~~kind~~.

~~That~~ ~~is~~ ~~the~~ ~~reason~~ ~~for~~ ~~the~~ ~~market~~ ~~being~~ ~~what~~ ~~it~~ ~~is~~
That is why the job is reducing the ~~amount~~ ~~of~~ ~~money~~ ~~to~~ ~~pay~~ ~~for~~
market money.

That is why the only way to ~~reduce~~ ~~the~~ ~~amount~~ ~~of~~ ~~money~~ ~~to~~ ~~pay~~ ~~for~~
eventually stop ~~the~~ ~~market~~ ~~from~~ ~~being~~ ~~what~~ ~~it~~ ~~is~~.

~~That~~ ~~is~~ ~~the~~ ~~reason~~ ~~for~~ ~~the~~ ~~market~~ ~~being~~ ~~what~~ ~~it~~ ~~is~~
now may be ~~the~~ ~~only~~ ~~way~~ ~~to~~ ~~reduce~~ ~~the~~ ~~amount~~ ~~of~~ ~~money~~ ~~to~~ ~~pay~~ ~~for~~
I'll - ~~not~~ ~~be~~ ~~able~~ ~~to~~ ~~do~~ ~~it~~ ~~by~~ ~~myself~~ ~~but~~ ~~by~~ ~~the~~ ~~market~~

Billie's work is noted

1. Missions that

It is that those people who have done
everything right - scoutmaster (at type)

~~Billie~~

Billie returned high because I said he
had become too many accounts to handle
money

Notes on 2nd -

and he says that
~~scout~~ into low for Billie,

then to deep sound

But your education.

Time for jobs to reduce the amount
in the human way

Time for jobs to tell the world
Give jobs, employees to work to learn
with the those who
now pay for no job
in the high my job = 100%
to be done.

The reason is not possible for anyone
any family having to put in a day with
some kind of work.

But it knows that it has to be done
and that if we make it - the
world will work

And how we have

It is important to know what those or other
 giants of the past would have said about our problems had
 they been with us now. ~~For people committed to~~
~~that goal or to maintain things with time~~ We have to
~~combine things of circumstances~~ with circumstances change, but
 some values are constant and the rest of politics is to combine
 the two.

That has no doubt

↳ keeping the growth of the supply of
 money well below the growth of needs

To live within one's means - good housekeeping,
 - good management -

- Good housekeeping is reduced finance -
 Good money
 Good management

Duty to rule

Points that hold on
 to -

Let's get rid of
 - and people
 put back here
 that have
 over on needs.
 My idea doesn't count

Freedom for Illusion.

Freedom for as many illusions

- That we could print money & still have sound money
- That we could ~~lose~~ keep old industries as though they could not have been produced
- That we could get cold credit jobs by ~~printing~~ ^{losing money}
- That every town is entitled to a subway
- That ~~self-acting~~ business could be disrupted but would still produce jobs.
- That we are entitled to no more medals of honor than we can look up with a shudder or cancel it ~~without a word~~
- That we are to ~~account~~ ^{be} ~~responsible~~ ^{for} looking at what's going to go.
- That if right is right.
- That we are to look to go for the need of help and do the best effort.
- That jobs are not responsible for holding over parents.

2nd

Freedom for the Mission.

~~don't take me out of my~~
~~don't take me out of my~~

~~with all my - and effort~~

~~Remember that if you don't like the work~~

↳ Never want to be other's means.

~~But~~

Don't let your great money if it
is to be your money!

3) That we can break the link between
 Pay & effort or the job we do.

We must get away from the illusion that somehow the basic laws of economics can be suspended for us because we are British..

The illusion that the rules of bookkeeping do not apply to the government.

The illusion that we are entitled to demand the same standard of living each year, regardless of whether or not we have earned it.

The illusion that the Government can somehow solve all problems by printing and paying out a little more money, and the illusion that this printing of money will not lead to inflation.

Indic

~~1. That~~

1. ~~That if you demand more pay without making more output~~
