From the Principal Private Secretary

13 January 1982

Dear John,

The Prime Minister has seen your letter of 12 January 1982 to Willie Rickett about your Secretary of State's plans to attend the European Management Forum's symposium in Davos from 29 January to 1 February.

In the light of what you say the Prime Minister does not propose to pursue the matter any further, although she has commented that she thinks it quite likely that there will be major television and radio programmes on the unemployment figures over the weekend when Mr Tebbit is in Switzerland, in which, presumably, other Ministers will have to take part.

Yours sincerely,

Alvie Whitman.

John Anderson Esq.,
Department of Employment.
