AS to see
RAG 74

Dear Ralph.

I'm very conscious that after all
the time you - a A.D. gave me when I
was conceiving the Centre I haven't been in
touch with you since. You will both know

that we are in existence; we are not yet in
action but are preparing. It was a pleasure

that Arthur Anthony should have been with
us for a few weeks.

This note is only to say that
I look forward to seeing you in the early
autumn and shall be suggesting dates when I
return from holiday.

We are up in Fiji

and I'm sleeping myself in Hayek - and
am ashamed not to have read the great
Constitution Liberty long ago. ←

No need to reply.

Yours.

Kerr

I've also read Friedman's Monetary Constitution
& several earlier drafts which I brought
with me.
