

A.S

6th December 1979

Thank you very much indeed for your letter of 9th November about my 1978 CPC lecture. I have now had a chance of re-reading what I said eleven years ago and share your view that much of what I said is apposite today. But I am rather reluctant to see the lecture published again, although many of the ideas that were incorporated will, I am sure, be useful in preparing future speeches.

With best wishes.
