Obergurgl, 8. September 1990

Appointment of Literary Executor and Revocation of Prior Appointment

I hereby appoint Lord Harris of High Cross as my exclusive literary executor subject to the right of my wife Helene von Hayek to withhold any materials deemed by her to be of purely personal character, and subject to the archival standards of the Hoover Institution on War, Revolution and Peace (Stanford, California), where I wish all of my literary estate to be located. I grant him my power of attorney with instructions to secure possession of all relevant materials forthwith and deliver them to the Hoover Institution.

And, I hereby withdraw and reverse my grant of literary executorship made to Mr. Steven Kreske of Oakland, California in June 1990 or other occasions.

Munich, 6 September 1990

Dear Friedrich,

We are all sorry you are not with us at the Mont Pelerin Society meeting here in Munich. All your friends here including Milton Friedman, George Stigler, Jim Buchanan, Arthur Seldon, Barbara Shenfield, Max Thurn, Herbert Giersch send their greetings and thanks for making possible our close fellowship of the Mont Pelerin Society. I personally salute you especially as a Companion of Honour appointed by Her Majesty the Queen.

Reports from Sudha Shenoy, after meeting Mrs. Cubitt in Australia, make me anxious that under present arrangements with Mr. Kreske your literary heritage may not be accessible to all serious scholars.

It is therefore important that you allow me to ensure that all this material is delivered into the safekeeping of the Hoover Library to which you previously deeded your

papers. It is essential that taped interviews with you are not misused.

In this way I would guarantee appropriate scholarly access to your great work for the future.

With warm regards

As ever

Joseph H
