WARRINGTON

The Conservative Party welcomes the fact that Mr Roy Jenkins is entering the fray at Warrington as the SDP Candidate. Both Labour and SDP claim to be true representatives of Socialism. Warrington should help to sort them out and to determine who has the right to carry the tattered socialist standard.

Roy Jenkins is putting his fate to the test. In so doing he will be judged on his past record as a socialist MP and Minister.

What the people of Warrington will bear in mind is that he and other Social Democrats were part and parcel of Socialist governments which inflated the public sector, bowed to the trade unions, and thus created the economic problems which a Conservative administration is endeavouring to solve. We shall be fighting a vigorous campaign to back the Government's actions.
