Dear Commander Callus.

Thank you so much for your inspiring letter of 5 June. I know that nothing I say will make up for the loss of your son. But he gave his life for very important principles, and that will never be forgotten. I am determined that Argentina should not profit from its aggression, and your prayers and support mean a lot.

With all my sympathy.

And to-day we have received the news we have been waiting for and it is all due to our little Paul. A sad but proud day for you.

Yours sincerely
Margaret Thatcher
