10 DOWNING STREET

THE PRIME MINISTER

Chaqueurs.

Saturday

Dear Stephen,

Forgive me for not having written before this to say thank you for entertaining us at Millon last weekend. A glimpse of the house has only whetted my appetite to see more - it is a wonderful part of our heritage.

It was very kind of Lady Fitzwilliam to stay up so late to

sl

entertain us. It is wonderful to
talk to her. She knows a life we
never knew.

I left knowing that we had
a tense day ahead. The phone
call over breakfast indicated that
the air-steps at Port Stanley had
been bombed by the Vulcans, successfully.

During the last week - there has
been an activity and interest I never
thought to experience - but this has
happened throughout history and it falls
to us to make our contribution to liberty
under the law.

Yours ever
Dorothy
