Dear Quinton

Thank you for your  
letter & the enclosed correspondence  
on spray-steel.

Steel is still with Keith  
although on the best side it  
comes under Task. I must say

that I envy your inexhaustible  
fund of optimism for the day  
that the party may have a  
policy on spray-steel! Having read

The correspondence the more  
important, immediate point seems  
to me that if this doesn't go  
ahead, there is virtually no  
alternative employment for the  
people of Tillam.

Yours are  
Rayner

---

P.S. I have acted as  
postman & packed the  
letters to Keith.
