Shadow Cab. Maurice again on ^{amend: for} Gov: of Nat: Unity. "Bring down t Gov^r now or you will not get another chance. Lost. Amendment on absence of specific measures to control inflation. But what will happen if carried? W. Q. grant a dissn? Eff very clear that not. My guess: he may well be wrong if She thinks (as I do) dissolution & election would lead to positive result not to our liking. But we must face that when it comes as party decided. In any event, doubt if it will pass: certain absentees fm our side owing to implied commitment to statutory inc. policy. (eg. Biffen: Ridley). But Libs have sum: amendment, so might have to support. Lab would then depend on SNP & Welsh nat support. & what will U.U.S do?
