Don't mind if we
twist up admin. machinery,
but must be under Brit.
direction.

Committees - must be
British given.
Not avoided the decision.

They understand if lots
of phraseology common.
and clauses - because
Romanian conditions taken
for ours.

Conditions to force
revised & understood.

Transition Period.

Wanted to know more
about this. - Finally
agreed it would have to be

and the following
is a list of the
various species
of birds which
have been observed
in the area.
The list includes
all species seen
during the period
from January to
December 1988.
The list is based
on observations made
by the author and
his wife, and

negotiated at
conference.

Further agreed that
conditions be negotiated
first.
"They" thought
conditions would not be
difficult to negotiate.

Returned to traditional period.
They thought Britain
must be seen to be in charge.
This obviously the most
difficult part.

Normal fell sharply
about this.

Hoskyns → hoped that
front-line Hitler
would bring pressure
to bear on Palmiro
Front once in

the night except without
rainbow or lightning

Young mammals & insects
insects & small stuff
ants & other small
things & plants and
such like this little
pig & many
birds & such

First night in bush all
well and good
nothing going wrong
should go well &
no lions heard

Constitution was agreed
to use wordings while
rights were copied etc.
~~Disagree~~

Thought that Rhodesia
would be left up an one
constitution except for
British one in charge.
Independence over later.

Sanction to when Rhodesia
left.

Henry Paepcke wanted
this if trademarks
should be controlled
Managed to dissuade him.

Explained they it would be
difficult if we were
permitted to band
and to get through British

and the first time I saw it

it was in a field near

the river and it was

very small and it was

Parliament:

All problems with party
if members were from
Commonwealth - difficult
to get them accepted
Parliament.

Some discussion about
Smith

Meanwhile Richard Hawley -

Argued that Smith
should not block.
=====

Possible that Smith would go?

about that anything will
be very new without it
things + experiences
and especially today a
whole lot

- personal work - no school
from

most talk most of
and very strong

biggest fear - probably

John Stuart Mill.
