The Prime Minister

HOUSE OF COMMONS  
LONDON SW1A 0AA

Dear Margaret

I hope you will not mind me writing this very  
private letter to you but I do so because I do so much  
want to see you succeed in your defence of freedom.

I write re the Textile industry and my "official"  
request to you to meet a delegation. I plead  
with you to do so.

The position really is very serious - another  
closure to be announced this afternoon (Ash Mill)  
making 4 in the last 17 days. Labour are having a  
field day out of it!

I've written the Local Press pointing out that  
in the last 3 months of Labo. Govt., we had 3  
Textile Rills close - and it really is nonsense to  
argue that all this is due to the Tony Govt. BUT

Honestly, those of us who fight a very viscous  
Labour Party in the N. West - do need to be able to be  
seen to be doing something.

I assure you, on my word of honour, many  
of your own Members are in the thick of it - as I am.  
Young David Trippier - a grand lad whom I've  
seen grow up - we're all taking the stick fresh  
a very cocky Labour Party -

Now word being flouted that you are not  
concerned - they are offering bets through  
speeches that you won't see us - and soon.

There's no way I'd attend a delegation  
and watch rudeness, unfair blame or  
impudence - though you'd well able to  
look after yourself - I realize!!

3

Since I first wrote you at "we became  
aware of a letter addressed to you by Bob Lloyd  
Jones - (dated April 15th) of British Textile  
Employers Assessor.

It would be great if you met us,  
and then agreed to set up - without prejudice  
a commitment — the working party the D. T. E.  
Employers are asking for.

We really do need a physiological  
stick with which to hit back. A meeting  
with you - without any disrespect to  
Keith or John Matt — would be such a

click and a boost - and your new memory  
~~will~~ would be greatly enlarged I assure you.

Tongue me then, for writing in this very  
 personal way. I hope (and believe) that you,  
 like me - will keep this letter confidential.

The typed ones are over official consideration!

I'm past the top of the hill politically, am  
 coming down rather - I have no axe to grind.  
 If I stand at the next Election - and it's  
 highly unlikely I'll do so - it will be  
solely because of my hatred of Left wing  
 Conservatism and my desire to keep one  
 more arch of the House - so I ask all  
 this not for personal ego, advancement

on anything of that kind but simply  
because I DO believe a meeting would  
not only be useful for the Textile Industry,  
it would also be very useful <sup>somewhat</sup>  
to the non-Union N.W.M.P.S.

Forgive me for writing at length,  
but I cannot over-emphasise my strong  
belief that a meeting WITH YOU is vital  
industrially and politically. Regards.  
Cyril Lee
