

11th October 1982

I am so grateful to you for all the excellent arrangements which you made for me to use the Autocue for my speech to the Conference on Friday.

Thank you for everything you did to ensure that this 'first time' went so smoothly. The Autocue made a great difference to me, and although I say so myself, I think the speech went off rather well.

With renewed thanks for all your help, and with every good wish.

Chris Lawson Esq
