

Ref Somerville  
Centenary

15th March 1979

Further to my last letter to you of 21st February I still have not heard anything from Somerville.

It would assist my office if we could find out whether or not they intended inviting me to their gathering during the summer. *I don't want them to feel they must.*

I would be very grateful if you could find out discreetly. *it may be that the letter went to an outdated address and has not been forwarded.*

With best wishes,

The Baroness Redcliffe-Maud

*Sorry to have to give you such a difficult task - but I don't want to give offence.*
