

Prime Minister

(2)

Paul

BRITISH EMBASSY,

WASHINGTON, D. C.

16th JAN 1980

Dear Prime Minister,

very many thanks
for sending me the photograph,
which I greatly value both
as an official exhibit and
to myself.

Having just done
a tour of Texas, Arizona
and California I can vouch
for the way the ripples of
your visit here here
continued to spread out across

The United States. The
impact is enormous.

At the moment
there is little serious
threat to the President.

Kennedy seems sunk,
literally, in Chappaquiddick.

Many thanks again
from Mary and me,
yours sincerely,

Nicholas Henderson
