*Friedrich A. Hayek.*

It was a pleasure to see you in Davos  
and to read your talk.

You asked me to suggest how an approach  
should be made to the BBC. It so happens  
that two of the chief people at the BBC  
are lunching with me towards the end of  
February. I will ask their advice and  
then write to you. Since by then you  
will have left the address you gave me,  
I shall send it to you c/o the University  
of Freiburg.
