Dear Margaret,

My heartfelt thanks to you & Denis for inviting me to Chequers. It was one of the happiest times I can remember. The company was marvellous and your hospitality was out of this world.

I cannot tell you how grateful I am to you for your infinite kindnesses to me. You are in my prayers that you will be able to lead our country through its present difficulties to a good sound economy. You deserve to succeed & it is in everyone's interest that you shall do so.

Some way or another it is necessary to change the mood of the country, although I feel that the great majority of people realise this for themselves. The British people seem to have an instinct that tells them when it is time to change course. I believe you are called to leadership at a watershed period in our history. May God bless your endeavours, and give you the strength & guidance that you need.

With heartfelt good wishes,

Ever,  
George.
