My dear Prime Minister,

Handwritten initials: MF

I should like to thank you once more for the exquisite hospitality extended to Madame WERNER and myself during our visit in London on October 26 and 27.

The exchange of views on some of the current international problems which I had the privilege to have with you personally enabled us to recognize large areas on a common approach. The present general economic crisis induces us to accelerate the solution of the major problems within the European Community in view of a better use of these Institutions for a new economic and social start.

Yours very sincerely
