

10 DOWNING STREET

THE PRIME MINISTER

11 March, 1981

Dear Mr. Woods,

I should like to thank you and your colleagues very warmly for receiving me at your factory last Friday. I well know what difficulties firms like yours are facing at the present moment, and it was most encouraging to see how determined you are to overcome them. I very much hope that you will go on winning the orders you need.

May I say how delighted I was to be shown your vintage prototype car. I thought that it was splendid, and it seemed to me to be symbolic of your firm's craftsmanship and skill.

Yours sincerely,

Margaret Thatcher
