

18 November 2002

Margaret Thatcher

My dear George,

Denis and I have just heard that you are ill and we hasten to send a message saying that we are thinking of you and recalling all the good (and even great.) things we did during our time in politics, And how much you did for Scotland especially.

I think we can rightly say that we made a difference.

May I also say that I am

Personally grateful for all the advice
and support you gave to me.

They were unforgettable years
both for us and for Britain.

With all kind thoughts

Yours ever

Rangant-
