Change weight quantity

Law of Return - Paradox

Technology → Job

Change in net return working

Historic lost to
current not exactly

Point ① - Price down - new -
new technology

Vol of labor - declined

② Training - in house
Proving cost $\frac{1}{200}$ / $\frac{1}{3000}$

Pay to study - cost less

Kerr → Unit based competitiveness
and Jones.

P. D. Kee:
Differences
Unconventional
N.B.M.

Dr. Whitwell. Q.1.1 CSOM.

Moil Evans - Issues to info-etc...

Pre-projects
Employers' opens their books;
Adequate redundancy payments.

Sir Mervin
Sir John
Mr. Dulke

Sir Mervin - Speed - Attitude
With a Lyric -
Change delivery

Dr. Dulke → Technique - change...
- New committee.

Tom Rutter

CO4. approval

- yes.

Committee - involvement

Human problem.

Checklist - Unit below 0.5.

- Productivity up.

- Effort was a new activity.

Could not accept checklist -
previously -

Of course not down -
quad guidelines

Work being carried out in
part change in.

Sir Richard

- Not enough action on
the ground

Local level needs

90% planning - corporate studies,

Sec. studies only.

No more studies

alps

Plaque Test - like experiment.

~~Not~~ Labeled - specific → when

Stimulus awareness - Feature, overall
organization.

Stimulus

Broader View.

• John Prion. II - Takay - class.

- Kelly.

- American business.

High standards of monetary
policy.

- Job of tomorrow -

Dr. John Gumborg - Credit degree of
concern in discussion.

- increasingly competitive
internationally.

- Commitment.

Dr. Chandler

- High degree of
general awareness.

- Practice taken up sharply
by comparison with competitors

The Murray, I - Rep new-advances
for new technology,
- Visit to U.S.A.

① - Change by pressure
i.e. Growth - Channels

② large scale public works - built

③ Heavy investment - ext. demand.

C.R. - discuss briefly

Long-run employment effects
+

Steel -

- Impact of new technology.
- Advances.
- Reaction to construction response
- Navar - short - impact for policies
- Management of gov. economy.
