Dear Margaret,

Just a note about our chat  
conversation last evening about Fleming  
I hear on the radio this a.m. that  
the local Authorities are split 50:50. I  
don't know if this is wisdom, but it is not  
a good starting point for a battle

I am convinced that despite all  
the difficulties, we should not allow a  
strike. I will write all the unions,  
and give them a real issue. This will  
strengthen their hand irreversibly more

in all way negotiations yet done  
other more political activities than any  
use of the money by Alas Fisher  
could ever do (in fighting for local Authorities)  
manor

I am staying with Hester  
at Ingham for the week-end

Yours

T. W.
