NATIONAL ANTHEM

Jobs.

What we are doing is the better
way to jobs.

What they propose would create
more unemployment than
ever in a couple of years
time.

Restricting Production - put up with
shortage of whole industries.

Putting Pay up whole industries -
was flapping around that
even our own people wouldn't.

Thank you for your expression
of warm ^{friendship} & confidence. ①

10 DOWNING STREET
friendship - expression has always
sustained me.

Democracy - one of our
fundamental wishes - comes a
time when a Member and a
folk has to submit himself to
the electorate.

A privilege that many would
love to have. It is essential that
the elected leaders stronger than
the directors or the self selected
under the Communist system.

Britain remains

a free country
and a steadfast ally
in an uncertain world.

10 DOWNING STREET

As we contemplate the
challenges facing us - do well
to heed Chamberlain's example
He had an unyielding
determination
which changed the world.
Above all, he had endurance
displaying an heroic willpower
to the exigencies of the moment
which enabled him to hold
fast to his goals no matter what
the obstacles or setbacks

Cost / £ 40 billion - year

Our cost - our responsibility
or what

All costs included in
published expenditure
programmes

NATO - collective defence

HOUSE OF COMMONS
LONDON SW1A 0AA

We have kept the peace for over 38 years. But there is a danger that we are now falling victim to our own success. Just because we have enjoyed peace for so long, some people have come to assume that this is an inevitable state of affairs rather than the result of the sustained efforts of the Alliance.

The so-called peace movement may pride itself on being the advocate of peace but it is the NATO alliance which can pride itself on being its practitioners. Peace does not come from chanting the word by some misguided incarnation. It comes from that fearless vigilance & determination which the Western allies have sustained for nearly 2 generations. Peace is hard work and we must not allow our people to forget it.

National Investment Bank

2

There are 11 1/2 million members of occupational pension schemes.

Everyone should know the small print of Labour's Plan. - I should understand

that Labour's Plan is to divert

their savings, the income from which provides their pension into state investment projects.

To ensure that plans are not opposed Labour propose to legislate

so that the Trade Unions appoint 50%

of the membership of controlling bodies of pension schemes.

And as if that wasn't

Justifying enough then marxists
 Propose ^{that they will} ~~to~~ "exercise much
 closer direct control over bank
 lending. --- ~~the~~

They - expect the major
 clearing banks to co-operate --

" However should they fail
 to do so we shall stand ready
 to take one or more of them into
 public ownership".

U.S

U.S. remains strongest member of alliance
- without it, European members would be
seriously exposed

if threat became imminent? - all course
that U.S. would stand by ~~us~~ us.

Now opponents wish to abandon
all nuclear weapons even though an essential
part of the balance of power; ~~and also to~~

~~pull out all nuclear bases~~ Their standard
voices demand the removal of American bases
from Europe - ^{but} ~~possibly~~ ^{Europe} ~~under the impression~~
^{is not under threat} ~~that our cities are imperiled under that threat from~~
^{from the U.S.!}

~~Parliament~~ 5/20/51 Winston -

"Where we are able to stand together
work together for righteous causes, we shall always be
thankful and the world will always be free"
