

10 DOWNING STREET

THE PRIME MINISTER

15th September 1983

Dear Mr. Wassmuth.

Thank you for your kind letter about my eyes and for the advice you so kindly gave.

The eye is improving steadily and I understand will go on improving for some time yet.

Before the trouble with the retina I rarely wore glasses but shall now have to have them for reading.

at night, and for small print:

I will tell my optician
what you say about 'minus'
glasses and their possible effect. I
was most interested in your view
that the health of the body depends
to some extent on the successful
functioning of the eyes.

Every good wish.

Yours sincerely

Raymond Shelden
