

PRIME MINISTER

CABINET DISCUSSION ON PUBLIC EXPENDITURE

I have been asked to find half a day in September when you could discuss the above. There is a Cabinet on 9 September just after you get back from Scotland and another one on 30 September after your return from China and before the Party Conference.

As there will be quite a lot of people away on 9 September would you agree to have it on 30 September? It is proposed that there should be an all-day Cabinet with half of it taken up on public expenditure.

Agree?
