

10 DOWNING STREET

From the Press Secretary

6 February 1984

Dear Norman,

I would like to place on record my appreciation to you for all the help you gave us with the large British media contingent covering the Prime Minister's visit to Hungary.

The arrangements went very well indeed and the Prime Minister seems to have returned in some triumph. This was no doubt due in part to the way in which the media side of the visit worked out and I much appreciate all your efforts.
