*From the Press Secretary*

*In Pitt,*

Just a line to express my thanks to you and your wife for all the help you gave me during the Prime Minister's visit - from which she has returned in some triumph, according to the British media.

I thought the visit was extremely enjoyable - and extremely fattening because of all the good food which you and the Hungarians so kindly gave us.

I do hope the visit lived up to your hopes and expectations. Many thanks.
