Private & Personal

Monday Oct 15

Dear Michael,

I don't need to tell you, I know; but shall feel better for getting it all — your boss is going to suffer — is already suffering — delayed shock over Friday — not her escape; but death & injury to those close to her. Delayed shock is serious and — I learned in the war — worst for the bravest. I know you will look after it. Do come to lunch soon —

Can you find a day to
get your secretary to give
me a visit?

Yours truly

John
