(let)
14 November 1984

Dear Michael

On Monday 19 November next at 6.00 pm I have invited a number of colleagues with a strong interest in the coal mining industry to come in for a drink at the Department, Room 1141.

If you are free and able to join us I would be delighted to see you.

This will just be an informal discussion about the present situation and Peter will probably look in for a moment at some stage. I was delighted to see that Kellingley was up to 52 and Wistow to 26 although there is still some way to go.

Yours ever

DAVID HUNT
