10 DOWNING STREET

From the Press Secretary

Re Butler

Mr. Ingham

Thanks. I am content but hope that we can get some TV of the PM in the shopping centre and at the hospital.

PERB

NORTHERN IRELAND

I have agreed with Dr. Gilmartin, NIO, the following points:

- 1) Press Association's reporter (who is invited by NIO) will travel with the party but in a separate helicopter. He will have privileged access, since the NI media simply isn't good. He will not be told anything in advance and will simply be shown to see Dr. Gilmartin at Stormont Castle at an appointed time
- 2) No doorstepping, no interviews, no press conference
- 3) NIO will ensure the statement is put in the autocue. The message will be recorded before one camera, with the Prime Minister delivering the message seated at a desk on which there will be a couple of walls

and a bunch of flowers

- the frame ~~now~~ will be filmed with the soldiers at bedtime for every evening news bulletins
- the media will be excluded from the shops (in the last visit in Belfast they cost Parsons & Spencer £10,000 in damages etc, according to Mr. Gilliland); PA will however have access
- as and when we think fit I shall let a TV and still cameraman into specific situations on the understanding they post; otherwise there will be no facility.
- we shall have to play it by ear; but we shall incline to be more rather than less rigorous in our approach to the media.
