OPS

My dear Charuella,

Thank you for your message, received earlier this month, about the European Transonic Wind Tunnel. As you say, the project is one of great importance to the future of the aerospace industry.

I am very glad that at a meeting of the Wind Tunnel partner governments in Bonn on 14 June our national representatives were able to confirm Britain's full participation. I welcome this further evidence of a developing collaborative relationship in science and technology which I hope we can extend into other fields, and I look forward to our two countries working closely together on this project.

Yours sincerely
Margaret Thatcher

His Excellency Herr Dr. Helmut Kohl
