THE PRIME MINISTER

22 February 1985

Dear George.

I was so grateful to you for the excellent material you provided for my speech to the Joint Meeting of the United States Congress. I do hope that it did not disrupt your ski-ing holiday too badly. But I was able to make very good use of it - and indeed given how generous you have been with your inspiration, can continue to draw on your thoughts for future speeches. I really am most grateful for your help.

Yours sincerely
Margaret Thatcher
