Jean Turgand

Thank you so much
for sending me the photograph & the
very generous description. It has pride
of place & how no explanations are
necessary!

I have just got back from
Washington & found that Reagan apart

There is a much better awareness &
understanding of European fears &
anxieties of the S.S.I. Particularly
Schultz & Nitze. I hope that I
convinced Reagan & the others that
it would be useful for him to
say something in Europe (Strasbourg?)
in May, along the lines of a
Nuclear deterrent being both moral
& necessary until something better
is tried & found adequate. Schultz
has promised to help.

Your trip to the Far East
appears to be going splendidly.
But what an awkward guy Tachai
is.

I'll give you a ring at
cheques in the next week or two
if I may
