

Public Opinion Background Note 89

(produced 26th May 1985)

1. Introduction

Since the Local Government Elections we have had three published opinion polls showing voting intention - Gallup (Daily Telegraph 16th May), MORI (Sunday Times 19th May) and Marplan (Guardian 23rd May). The interviewing for all these surveys was completed by 13th May - the interviewing for our latest unpublished Gallup 'tracking' study was conducted from 15th to 20th May. The results from this survey, together with comparative results for the three post Local Government election results surveys, are shown in the table below:-

Voting Intention - Post Local Government Elections

	<u>Gallup</u> (Daily Telegraph - 16th May 1985)	<u>MORI</u> (Sunday Times - 19th May 1985)	<u>Marplan</u> (Guardian - 23rd May 1985)	<u>Gallup</u> (Unpublished)
Conducted:	6-13 May	7-13 May	9-13 May	15-20 May
	%	%	%	%
Conservative	30.5	34.0	29.0	31.0
Labour	34.0	36.0	35.0	36.5
'Alliance'	33.5	28.0	35.0	31.0
Other	2.0	2.0	1.0	1.5

All four surveys found Labour in the lead; one found the 'Alliance' in second place; one the Conservative Party in second place; and in one study Labour and 'Alliance' in joint first place. The latest unpublished study found the Conservative Party and the so-called 'Alliance' neck and neck in second place. The most recently conducted survey (unpublished Gallup - conducted from 15th to 20th May) found Labour with a 5.5% lead over the Conservatives and 'Alliance', both of which had 31%. Compared with the previous (published Gallup study, 'Alliance' support has fallen by 2.5% - however even the current level of support is a continuation of the slow upward drift of support to the 'Alliance' our Gallup surveys have been finding in recent months.

Full details of the trend of support for the main parties since January 1985 showing voting intention when those respondents not giving details of voting intention are excluded and when they were included as a separate group are shown in the tables in section 2 below:

3. Government Record

The proportion of the electorate approving of our record in government is at the lowest this year - only 27% claimed to approve of our record in government, 60% disapproved and 13% did not have a view.

5. Published Polls

(a) Marplan (Guardian, 23rd May 1985)

The Guardian on 23rd May included details of a Marplan survey conducted from 9th to 13th May. They found 35% claiming they would vote Labour, 35% 'Alliance', and 29% Conservative. These results are not confirmed by other published surveys or indeed our latest unpublished Gallup study considered above.
