Dear Prime Minister:

I know the President has expressed his deep appreciation to you personally, but I wanted to add my own thanks, not only personally, but on behalf of all the pilots and crews of all the planes based in England for your exceptionally courageous, strong, and decisive action.

Your courage and strength is a source of great inspiration to all of us, and I am most grateful to you, as I know are the men and women of our Air Force in England. Indeed, I firmly believe that your action has been a source of great gratitude and an inspiration to our men and women all over the world.

With many thanks and my deep appreciation.

Sincerely,
