

Inner City

- What has been achieved
already

Already the achievements in Inner City
~~and areas that were formerly~~ ~~deserted~~ are
considerable

Clayton - the first city I visited, and
where, walking about I met a citizen called
Wilton Churchill! We shook hands warmly - he
~~having~~ ~~proved his idea~~ having shown me evidence that
that was his real name! Clayton has been
transformed - its modernised railway station - its
shopping centres, ~~modernised~~ ^{restructured} housing, - new houses to
buy - ~~and the~~ ~~remained~~ The ~~the~~ Templeton centre -
formerly a ~~empty~~ factory, ~~and~~ built ~~as~~ like the Palace
of the Pope in Venice, and the ~~the~~ location of many small
businesses and the centre of where ~~there~~ the excellent
organisation "Business in the Community" ~~the~~ ^{trans} young
people - concentration on those who have had difficulty in getting

job because they lacked the basic skills.

Russide - ~~a new urban~~ where the

~~and~~ U. 2 Corp - had already signed 3 major contracts,
in its first fortnight of existence,
where I saw the latest electronic technology, of

~~computer aided design - and manufacturing~~ applied to
helping new business new products. ~~And since the~~
In its two years

of existence - 17 high tech firms had already come
to that site. ~~the former~~ ~~transmission site.~~
The Cleveland Youth Business
Centre where people seconded from industry and other
Lack ~~monies~~ help and training
~~admin~~

to local young people wanting to become self employed.
The demand is rising - the centre is expanding its
These numbers are increasing - that very day some
of them had received ~~new~~ ~~of~~ ~~as~~ ~~at~~ ~~that~~ ~~they~~
had a regional grant in ~~as~~ help to their enterprise
allowance.

The West Midlands - where so much was

headed into an exciting day

- the Wolverhampton Crompton Ass. ~~has~~ ~~help~~ ~~one~~
of the regions largest sponsors of ~~training~~ employment training.
It ~~employs~~ ~~over~~ for people of different race, background -
ages. No-one is ~~to~~ ~~ever~~ ~~lured~~ ~~away~~

~~The former~~ ~~Adston~~ ~~theatres~~ - ~~has~~ ~~been~~ ~~red~~ ~~handed~~
~~are~~ ~~being~~ ~~built~~ ~~over~~ ~~the~~ ~~old~~ ~~closed~~

The former site of the District Studios, closed 7
years ago ^{where} ~~new~~ new homes are speeding over the area.

Old factories again to be used ~~of~~ as workshops for
business; - (The business man ~~there~~ who masterminded the
scheme told me he had ~~gone to~~ 43 banks ~~for the loan~~ refused
~~necessary loan~~ from banks for a loan but had got it from
the ~~44th~~!))

On to the Enterprise Awards - given by the D.B.C.
in the Enterprise series ^{on Radio 4} - this year 500 entries.

And other success elsewhere in the U.K.

London - Dorset - from dereliction to dynamism in
a few short years. Credit Day - the most exciting
scheme just beginning for that capital city.

There are a plethora of grants available for
these things - so many that they become confusing.
But ~~what we~~ learn ~~from so many~~ ~~A that things~~ ~~in that~~
new landmarks done with achieve like. Go to ^{need} ~~to~~
~~for the~~ ~~local~~ ~~leadership~~ to restore confidence in local
people and for that ~~you need~~ strong local leadership in
that ^{required} ~~believe~~ - people who believe in the private sector.

Two schemes show that above all - one
at Lakeside, ^{which I visited} the largest ~~shop~~ shopping centre in Europe.
The ~~business~~ ^{grandchild} of John Hall whose talk in the area
was so abundantly justified. The other, the Dean
Church Industrial Park in Halden. ~~Centre~~ - When Mr.
Linnell Hall (no relation to Mr. John Hall) bought the old
factories which had been the pride of Halden, ~~to sell for~~
the town prospered down history for his idea.
Today there are 200 new businesses which employ 1,500
people. Attitudes have changed. Hopelessness has
been turned into confidence and enthusiasm.

~~However~~ ~~crossing~~ ~~business~~ ~~can~~ ~~go~~ ~~harder~~

~~hard~~ ~~with~~ ~~best~~ ~~and~~

Foreign Affairs

1. (from 1944). Democracy is not capable of
an aggressive foreign policy

Atoms don't create problems.

System based on freedom with justice
is morally superior to any other.

With total disarmament does not
endanger peace.

Peace and Freedom have their price

Polished presentation must not be allowed
to obscure harsh policies.

2. John Quincy - Remember the Russians are chess players

They are still in Afghanistan.

The Berlin Wall is still up.

Ukrainian still not fulfilled etc etc.

Education -

Suppose,

(U.S. pupils lacking factual knowledge)

If you are not taught some bits
you won't have much to think with.

If you are not taught meaning & phrases

you will ~~not~~ miss a lot in life
and resist your future children.

And you won't put
the basic deposits in
the bank of the mind
to draw on for
ever more.

If you are not taught methods of thought
you won't know where to
start

If you are not taught how to learn.

Things will go wrong and you'll
out of the system

"If we are defensive about nurturing our
but to achieve them but and learning, the
average to achieve more than what the money can do
we will not make progress.

*The Minister
W. Davis*

10 DOWNING STREET

THE PRIME MINISTER

Socialism - defeat of

I have often said that I want
~~to~~ finally to defeat socialism by which
I mean the dogma of the almighty state ruling
every part of our lives - on the hard left, and they
are hard from ~~our best authorities~~ ruling our
bad boys. They do not seem to save people

but to corrupt them. ~~And a political creed~~
is ~~not~~ ~~in~~ ~~keeping~~ with the ^{British} ~~character~~ of ~~the~~
I wish to see the back of this socialism because I
believe passionately that it would be bad for Britain

And now they are beginning to ~~believe that~~
mouth the language of free enterprise say

10 DOWNING STREET

THE PRIME MINISTER

To sum up

ECONOMICS

For the first time in a generation this
Country is tasting ec. success.

~~We can't even a hair by deep on our laundry~~

P.2 (U.I) Sound finance is vital.

Sound defence is -

- low

Lincolnshire for enterprise

Not short term policies - at the heart
of what we believe to be right for Britain - the basic policies we need
as we move towards the end of this century and into the next.
