

PRIME MINISTER

I should very much like to show Mrs Margaret Collins round Downing Street. She came to give a talk to my Conservative Women in Epsom on tours round London.

I think it would be particularly pertinent for her to see the inside of No 10, and I hope that this will be all right.

1. I have down
many such requests.

If she is on "leave" - then

Could be no question of her using

any knowledge of the inside of
No 10 to impart to others.

It may be possible for her
to come on "relatives grounds"
Saturday morning - as Nigel when
they are - if you could come with her

AMH.
