

PRIME MINISTER

EUROPEAN COUNCIL IN MADRID

I attach some basic papers. Quite a lot of them are familiar to you. The new ones which you will not have read are a note on fraud against the Community budget, a detailed note on the remaining capital, banking, and financial restrictions, and the Council of Europe's Social Charter. I have also put in the folder the printed version of the Chancellor's evidence to the TCSC.

You will wish to add these to the papers you already have for the European Council.
