Dear Prime Minister,

mb

Thank you for a very enjoyable lunch with Denis and yourself at Clevers last Sunday. I can think of no more distinguished and relaxed setting in which to let you know how far I have got in working up a policy and setting out my thoughts on the NHS Review. I was very grateful for the opportunity of exchanging ideas with you and setting out objectives.

I have had a long discussion with Richard Wilson and a small group of people I can

work with in order to complete preparations for
next week's meeting. Lunch at Cheyenne was a
welcome stop on the way.
