DEPARTURE ARRANGEMENTS FOR THE VISIT OF THE PRIME MINISTER
AND SECRETARY OF STATE FOR FOREIGN AND COMMONWEALTH AFFAIRS
TO THE HAGUE FOR THE EUROPEAN COUNCIL MEETING 26 JUNE 1986.

1. TRAVEL ARRANGEMENTS

Prime Minister

- a) The Prime Minister together with those shown at Appendix I will leave London Heathrow Southside at 0940 hours on 26 June arriving at Schipol Airport at 1150 hours.
- b) The party will travel in an RAF VC10 aircraft, task number ASCOT 1142.
- c) Flying time London Heathrow (Southside) to Schipol is 1 hour 10 minutes. The Hague is 1 hour ahead of London (UK on BST ie. GMT + 1 hour; Netherlands on GMT + 2 hours).
- d) Passengers are requested to arrive at London Heathrow (Southside) at the times shown at Appendix IV.
- e) The VC10 is expected to return to Southside during the afternoon/evening of Friday 27 June (see Appendix III).

Secretary of State

- f) The Secretary of State for Foreign and Commonwealth Affairs together with those shown at Appendix II will leave London Heathrow (Spelthorne Suite) Terminal 4 at 0700 hours on 26 June arriving at Valkenburg Airport at 0905 hours.
- g) They will travel in an RAF HS125, task no ASCOT 1432.
- h) Flying time London Heathrow to Valkenburg in the HS125 is 1 hour 5 minutes.
- i) Passengers are asked to arrive at London Heathrow Spelthorne Suite at the times shown in Appendix V.
- j) The RAF HS125 will return empty direct to the UK after the disembarkation of the Secretary of State and his party.

2. BOXES, BRIEFCASES AND LUGGAGE FOR CARRIAGE ON THE VC10 AND HS125

VC10

- a) An FCO security van has been reserved to take boxes, briefcases and luggage to London Heathrow (Southside). The van will leave the FCO at 0755 hours and No 10 Downing Street at 0800 hours.
- b) FCO boxes, briefcases and luggage (unlocked) can be left in Room W1, Security, Downing Street West, any time on the evening of Wednesday 25 June.
- c) The Duty Clerk (Miss Hamilton) will accompany the van from No 10 Downing Street. The van may need to use Control Post 10 for access to Southside. The main Control Post will open at 0835 hours.

HS125

- d) An FCO security van and FCO Security Officer will take boxes and briefcases to London Heathrow (Spelthorne Suite). The van will leave the FCO at 0530 hours.
- e) To differentiate in Room W1, Security, between items for the VC10 and HS125, it would be useful if (in addition to the labels colour coded in the administrative arrangements) items for the HS125 could be given a LILAC label. Supplies are enclosed for those travelling on the HS125. To allow as much space as possible in the cabin of the HS125 for the comfort of those travelling, it would be helpful if for example some boxes could be allocated for carriage on the VC10. Space on the HS125 with the seven passengers is extremely limited and overnight luggage should be kept to the minimum.

3. TRANSPORT IN THE UK

Outward 26 June

- a) VC10 - Please see Appendix IV for transport to London Heathrow Southside.
- b) HS125 - Please see Appendix V for transport to London Heathrow Spelthorne Suite.

Return 27 June

- c) A security van and cars will meet the party on the VC10 on their return to Southside on 27 June (see also Appendix III).

TRAVEL ON SPECIAL FLIGHTS

BAGGAGE AND INSURANCE REGULATIONS

1. BAGGAGE

- (a) Those travelling by RAF aircraft are reminded that baggage should be left unlocked for the customary check. Butane gas lighter refills and matches, other than safety ones, may not be taken on the aircraft; certain aerosol sprays are now accepted on flights, provided they are not used on the aircraft. Any electrical items must be disconnected from their batteries.
- (b) Those travelling in the VC10 may take up to 66 lbs of personal baggage.

2. INSURANCE

- (a) No refund of insurance premium is payable from public funds for officers on short-term visits overseas.
- (b) Those travelling by RAF aircraft are subject to the same statutory limits of compensation as apply to carriage by commercial airlines but international journeys to or from the UK with an agreed stopping place in the United States are governed by the provisions of the IATA/Montreal Agreement which include a compensation limit higher than the statutory one. Prospective travellers in RAF aircraft are advised to check whether their personal insurance policies provide cover for travelling by non-commercial flights and to consult their insurers if they are in any doubt about their position.
- (c) When the personal property (other than money or luxury articles) of an officer sent overseas on a short-term visit is lost or damaged during transit to or from the UK or while he is in receipt of subsistence allowance (but not local allowances and DSA) during his stay overseas and the loss or damage is not covered by an existing insurance policy, and the officer himself has not been negligent, compensation may be paid at the discretion of PSD. The amount of compensation would be based on the current cost of replacing the articles less an amount for depreciation or, if less, the full cost of repair.

Dear Charles,

European Council Meeting, The Hague: 26-27 June

There are two places for a separate luncheon at the Nordeinde Palace on 26 June. Our Embassy in The Hague have said that it is entirely optional as to who attends and have suggested that the places might be taken by the Private Secretaries.

I would be grateful to know if you agree with this suggestion.

12 June 1986

Dear Charles,

European Council Meeting, The Hague: 26-27 June

We have the following recommendations to make regarding travel, living and working accommodation for the European Council in The Hague.

Travel

For security reasons, a specially-fitted RAF VC10 has been reserved for the Prime Minister, Secretary of State and accompanying party. The Programme begins with an official luncheon for the Ministers given by Queen Beatrix at the Noordeinde Palace at 1230 for 1300 on Thursday 26 June. The Embassy in The Hague will let us know as soon as possible the exact time the Prime Minister will need to arrive at the Palace. It is expected that the First Session of the European Council will begin at 1500 hours in the Ministry of Foreign Affairs Conference Centre on that day.

Timings for the RAF VC10 are as follows: (London GMT +1, The Hague GMT +2)

LHR (Southside) - Valkenberg	1 hour 10 minutes
Valkenberg - LHR (Southside)	1 hour 5 minutes

Suggested timings for the outward and return flights will be sent to you as soon as possible.

Living Accommodation

On the advice of Colonel Durrant and Superintendent Waller, it is recommended that the Prime Minister and Secretary of State stay in the Ambassador's Residence instead of in the Kurhaus Hotel which has been designated by the Netherlands Ministry of Foreign Affairs to accommodate Heads of Government and Ministers of Foreign Affairs participating in the European Council. Copies of Colonel Durrant's reports on his reconnaissance visits to The Hague on 14-15 April and 20-21 May are attached.

/The following

The following plan would accommodate the maximum number of the immediate party in the space available in the Residence:

First Floor

Guest Bedroom 1	Prime Minister
Guest Bedroom 2	Secretary of State
Bedroom	No. 10 Detective)

Second Floor

Guest Bedroom 1	No. 10 Private Secretary	)	sharing bathroom
Guest Bedroom 2	FCO Private Secretary	)	
Domestic staff Bedroom	FCO Detective	)	sharing bathroom with Residence
		)	Assistant Chef

The Chief Press Secretary and the remainder of the No. 10 and FCO parties would be accommodated in the Hotel Des Indes which is five minutes by car from the Residence and two minutes on foot from the Embassy. Other members of the support staff (RMPs and Communications Officers) would be accommodated in a suitable nearby hotel.

Timings by car are approximately:

Residence - Conference Centre	8 minutes
Residence - Hotel Des Indes	5 minutes
Hotel Des Indes - Conference Centre	5 minutes

Working Accommodation

(a) Residence:

Private Offices would be set up for evening and early morning work, with the Ambassador's Study for the No. 10 Private Office and the Red Room for the FCO Private Office. The Yellow Drawing Room could be used for Delegation Meetings. All these rooms are on the ground floor.

(b) Ministry of Foreign Affairs Conference Centre:

Two rooms have been allocated to the UK Delegation.

I should be grateful to know if you agree with the above arrangements. You will note that the bathroom facilities are far from ideal, but they are the best that can be managed if the party are to stay at the Residence.

The Foreign Secretary had a word with the Netherlands Foreign Minister over last weekend to explain that our security experts felt it would be best if the Prime Minister were to stay at the Residence. Van den Broek said he quite understood. The way is therefore clear for us to plan on that basis, if you are content.

EUROPEAN COUNCIL MEETING, THE HAGUE, 26-27 JUNE 1986: SECURITY

Problem

1. Where should the Prime Minister and Secretary of State for Foreign and Commonwealth Affairs stay on the night of 26 June.

Recommendation

2. That both the Prime Minister and the Secretary of State for Foreign and Commonwealth Affairs should stay in the Residence of HM Ambassador, The Hague, on the night of 26 June. Detective Superintendent Waller agreed with this recommendation.

Background

3. This report is a follow up to my previous report dated 16 April. At that time it was decided that Detective Superintendent Waller, the Prime Minister's senior Protection Officer and myself, should return to The Hague after one month to review the situation. Building works in the Kurhaus hotel and the early stages of police planning precluded making an appreciation of the situation and a balanced recommendation at that time. We carried out our second reconnaissance on 20 and 21 May. This report should be read in conjunction with the previous report.

4. The principal cause for concern is the total rebuilding taking place on the second floor, to create sufficient suites for Heads of Government. Despite Commissioner Frencken's assurance that buliding workers have been checked and are subject to frequent controls including a permanent police presence and examination of building work we saw no evidence of this. We were struck by the ease with which a device could be concealed within the new work or within the voids above room and corridor ceilings. Alternatively, a subverted worker could plant a device in a previously reconnoitred position and in either case, a device adequately screened could well escape detection.

5. We cannot be sure that the expertise and sufficiently sophisticated equipment exists to ensure detection of a device, particularly in view of 24 hours only being available for a complete search of the hotel and the daunting decision to interfere with newly completed and decorated building work. We remained unconvinced that adequate resources to counter this danger were being deployed soon enough.

6. We were left in no doubt of police intentions to adequately protect the hotel inside and outside immediately prior to, and over, the period of the meeting. Commissioner Frencken was at pains to stress that the Netherlands Prime Minister had personally underwritten the decision to use the Kurhaus hotel and concentrate all resources on the hotel and its surrounds.

Police Arrangements

7. The police will clear the main route from the hotel to the MFA and other venues of parked cars and run escorted groups of vehicles across closed road intersections. These arrangements would not apply in their entirety were Heads of Government or Ministers for Foreign Affairs to stay elsewhere.

8. Commissioner Frencken agreed, albeit reluctantly, that were the Prime Minister to decide to stay at the Residence, then they would provide an escorted motorcade using protected cars for the principals and make the best arrangements they could for a free and uninterrupted passage. It should be noted that the Residence is located close to the main route into the city centre from the Kurhaus. It would therefore benefit from the final 2kms of the principal route and in the area of the greatest traffic concentration.

The Residence

9. My previous report described in some detail the main features of the Residence. We have taken into account the risks attached to use of the Residence. With adequate police coverage, we believe them to be minimal as compared to the Kurhaus hotel.

Other Problems

10. Use of the Residence takes the principals out of the mainstream activity at the Kurhaus hotel. Accessibility of other Heads of Government and Ministers of Foreign Affairs, together with the Press, were not taken into account in making our recommendation.

EUROPEAN COUNCIL MEETING, THE HAGUE, 26/27 JUNE 1986: SECURITY
BACKGROUND

1. Accompanied by Miss Davis, Protocol Department Conference Officer and Superintendent Waller, the Prime Minister's senior protection officer, we visited The Hague on 14 and 15 April. We had meetings with the Embassy, the police (both Municipal and State) and carried out a detailed reconnaissance of the Kurhaus hotel at Scheveningen, the Government Conference Centre at the Ministry of Foreign Affairs, the Residence and the Hotel des Indes.

2. a) General

The Dutch authorities are planning on all official delegations, including Heads of Government and Ministers for Foreign Affairs staying in the Kurhaus hotel. Travelling by car, escorted and along closed roads to the meetings in the Conference Centre (14 minute journey). Protected vehicles would be provided for Heads of Government and those Ministers at high risk. The Dutch have yet to focus on the general arrangements and it was not possible to obtain much detail. There will be two other road journeys - to The Queen's lunch on the 26 June and a lunch in the City Hall that evening.

b) The Kurhaus Hotel

Stands alone on the Scheveningen sea front but is in close proximity to other buildings, especially side walk cafés either side of the entrance forecourt and residential flats on the opposite side of the road. The building is about 100 years old, gutted in 1931 for modernisation and rooms on the second floor of the central area have been virtually demolished so that suites for the Heads of Government can be built. Workmen etc are at work now but they are not expected to complete until 7 June at the earliest.

c) The disturbing factors concerning this hotel from a security point of view are summarised as follows:

1) There is only one employee of the hotel concerned exclusively with security. As a result goods entering the hotel are not examined even on a random basis.

2) The workmen building the suites know why they are being built but neither they or anyone else are aware of the allocation. Neither the workmen or their bags/tools are being checked.

3) The hotel (254 rooms) will remain open to the general public until mid-day on 25 June. It is not possible to physically search this hotel to an acceptable standard in the 12 hours or so remaining before official delegations arrive. Although the police will have firm control internally and externally from mid-day on the 25th it is too late.

4) There is a great deal of glass internally, commencing with the vast cupola suspended from the topmost wooden latticé work in the roof covering the main Salon to the glass walls of the sea facing restaurant.

5) The 230 staff are very mixed in origin which must make it extremely difficult to determine their antecedents.

6) The Casino which is an integral part of the hotel will remain open to the general public although they are considering using another entrance.

d) The Residence

This is the obvious alternative for accommodation purposes. It stands alone in its own grounds with a remote controlled substantial front gate giving access to a driveway leading to the side facing front door. The front fence is sheet metal plated and there is a peripheral brick wall, which is scaleable. The grounds are lighted and internally controlled flood lighting can provide additional illumination. Most ground floor windows have grilles and doors are alarmed. Alarm buttons are located at strategic points, there is a "safe area" on the first floor. Upstairs windows have wooden shutters that can be closed and downstairs rear windows have electric motor driven metal shutters. There is a direct telephone to the police and CCTV coverage around the house.

e) The attractive features of the Residence from a security point of view are:

i) It is a controlled building and has been since it was first occupied some 14 months ago. It consistently attracts police attention and there is a police post outside and manned when HMA is in residence.

ii) The building is secure and there is a wide range of installed security devices.

iii) The Residence is some 7 minutes drive from the Conference Centre and near to other city locations.

f) Police Arrangements

During our discussions with Commissioner Frencken, who will be responsible for all police arrangements, he made it clear that their resources would be fully committed to the Kurhaus hotel and the routes between. He indicated that it would be difficult to provide adequate road escort and traffic control arrangements for anyone not staying in the designated hotel. This is a real problem in The Hague where there are many street intersections and traffic light phasing that is unduly long. One can be halted at a red traffic light for in excess of 2 minutes which has inherent security considerations.

g) Summary

The early stages of the police planning did not provide us with an adequate basis for negotiation. It is possible that in a month's time the police may be better disposed to consider separate arrangements, were the Residence to be used. Other Heads of Government may also decide not to stay at the Kurhaus hotel, which will cause the Dutch authorities to make alternative arrangements for separate journeys. As we were the first reconnaissance party to visit, the arrangements in their outline stage are somewhat inflexible.

You hoped it might be possible to leave Heathrow later than 1000 hours to get to The Hague in time for Queen Beatrix's lunch.

The difficulty is that The Hague is 1 hour ahead of us, and the flying time alone is 1 hour 10 minutes. The lunch is 1230 for 1300 hours start. So it really would be impossible to leave Heathrow much after 1000 hours and still be there in time.

So the morning of Wednesday 25 June seems the best alternative for Cabinet.

Dear Charles

European Council Meeting, The Hague, 26-27 June

I should be grateful to know who will accompany the Prime Minister to the Council in June. We shall need to apply soon for the necessary passes.

As you know, the party normally includes, in addition to No 10 officials, representatives from the Cabinet Office, HM Treasury, Foreign & Commonwealth Office and other interested Government Departments as necessary.

From the Foreign Office we would as usual propose the Foreign Secretary, Tony Galsworthy, Derek Thomas, Robin Renwick, Christopher Meyer, John Ramsden (as Correspondent), 2 PAs and 2 Detectives. In addition, given our forthcoming Presidency, we are keen to include Michael Richardson (Head of Presidency Secretariat) who would find it very useful to get the feel of this Council at first hand.

As usual delegates from UKREP Brussels will be present, plus a support staff contingent of members of Overseas Conference Section, Communications Officers and Royal Military Police.

Yours ever

EUROPEAN COUNCIL MEETING - THE HAGUE, 26-27 JUNE 1986

REPORT ON RECONNAISSANCE VISIT 14-15 APRIL 1986

1. This report is the result of a one and a half day visit I made to The Hague in company with Colonel Durrant, Head of Security Section Protocol Department, and Det/Superintendent Waller, the Prime Minister's senior protection officer, to look at the arrangements proposed by The Netherlands Government for the European Council Meeting.

2. The main sessions of the Council will take place in the Ministry of Foreign Affairs Conference Centre. In accordance with the usual practice at European Council Meetings, each Delegation will be allotted two offices. The rooms we have been allocated are 3E30 and 3E42 (adjacent) on the third floor. Room 3E42 is rather ornately furnished and could be used as the Delegation office and 3E30 is suitable for use as the general office. There is a direct dial telephone in each office and photocopying facilities are available on the same floor. The German and French Delegations will also be accommodated on this floor.

3. LIVING ACCOMMODATION

a) Kurhaus Hotel

On the advice of the Minister responsible for the personal security of foreign dignatories, the Netherlands Foreign Ministry have designated the Kurhaus Hotel at Scheveningen for the accommodation of the Head of State, Heads of Government and Ministers of Foreign Affairs participating in the European Council. The Kurhaus (254 rooms) built in 1885, stands alone on the seafront. The suites to be used by the VIPs are at the moment under construction but they should be ready for viewing in about a month's time. We have been allocated 3 suites and 30 rooms in the hotel.

b) The alternative accommodation to the Kurhaus for the Prime Minister and Secretary of State would be HM Ambassador's Residence. The Residence is small and the following plan would accommodate the maximum number of the immediate party in the space available:

First Floor

Guest bedroom 1	- Prime Minister
Guest bedroom 2	- Secretary of State
Bedroom	- No 10 Detective

CONFIDENTIAL

Second Floor

Guest bedroom 1	-	No 10 Principal Private Secretary	
Guest bedroom 2	-	No 10 Private Secretary	(would need to share bathroom with No 10 PPS)
Domestic staff bedroom	-	FCO Private Secretary	(would need to share bathroom with Residence Asst Chef)

c) Hotel Des Indes

If the Prime Minister and Secretary of State were accommodated in the Residence the remainder of the No 10 and FCO parties would be accommodated in the Hotel des Indes where we have reserved 1 suite and 20 rooms.

Colonel Durrant has requested in his separate report on security dated 16 April (copy attached) that a decision on the recommendation for living accommodation for the Prime Minister and Secretary of State be deferred for one month when police planning for the Council Meeting is more advanced. Colonel Durrant will then be able to see the completed suites at the Kurhaus and if it is considered that the Residence is the best choice then persuade the police that, however inconvenient it may be, they must make separate arrangements for the Prime Minister's security and road journeys.

4. PRIVATE OFFICES

Private Office staff will work primarily from the Delegation Offices in the Conference Centre. Offices will also be set up wherever the Prime Minister and Secretary of State are accommodated overnight.

5. COMMUNICATIONS

a) Telegrams

The Embassy Communications Centre will work on a 24 hour basis during the visit, and will need to supplement their existing staff.

b) A regular safehand service will be needed during the day between the Embassy and the Conference Centre and at night and first thing in the morning between the Embassy and wherever the Prime Minister and Secretary of State are accommodated.

CONFIDENTIAL

c) Telephone requirements will be considered when we know where the Prime Minister and Secretary of State are being accommodated.

6. TRANSPORT

The Netherlands Government will provide a protected car for the Prime Minister and the Embassy in The Hague will request the Ministry of Foreign Affairs to provide a second protected car for the Secretary of State. If not, we will request one from our Mission in either Brussels or Bonn. A further 10 cars will be hired by the Embassy. An office car will be used for the safehand runs. At the Conference Centre cars will be parked in a secure area with a call up system in operation.

7. TRAVEL

The Prime Minister and party will travel in an RAF VC10. The Royal Netherlands Naval Base at Valkenberg will be used for arrival and departure. I was told that there would be no guard of honour. The Prime Minister and party will travel by road into The Hague. The Council begins with a luncheon given by Queen Beatrix which I understand is at 1300 hours and the Embassy in The Hague will advise us on the exact time the Prime Minister needs to arrive at Valkenberg. (Flying time LHR (Southside) - Valkenberg 1 hour 10 minutes: Valkenberg - LHR (Southside) 1 hour 5 minutes. London is GMT + 1: The Hague GMT + 2)

8. PRESS ARRANGEMENTS

- a) The main Press Centre will be in the Ministry of Agriculture which is opposite the Conference Centre.
- b) It is probable that the Press Suite will need to be in the Hotel des Indes.
- c) UK daily newspapers for the party will be purchased in The Hague.

9. FINANCE

Rates for rooms at both the Kurhaus and the Des Indes are high and conference terms rates of subsistence will apply.

CONFIDENTIAL

10. TIMINGS

	by car
Valkenberg to centre of The Hague	20 minutes
Residence to Conference Centre	8 minutes
Kurhaus to Conference Centre	14 minutes
Hotel Des Indes to Conference Centre	5 minutes
Embassy to Conference Centre	5 minutes
Embassy to Residence	3 minutes
Embassy to Kurhaus	15 minutes
Embassy to Hotel Des Indes - on foot -	2 minutes

11. CONCLUSION

We were the first reconnaissance party to visit The Hague and planning for the Council Meeting by the Netherlands authorities was still at an early stage. However, the visit was very useful and the Embassy in The Hague arranged a good programme.

EUROPEAN COUNCIL MEETING, THE HAGUE, 26/27 JUNE 1986: SECURITY

PROBLEM

1. Where should the Prime Minister and Secretary of State for Foreign and Commonwealth Affairs stay on the night of 26 June.

RECOMMENDATION

2. That the decision be deferred for one month for the reasons outlined below.

BACKGROUND

3. Accompanied by Miss Davis, Protocol Department Conference Officer and Superintendent Waller, the Prime Minister's senior protection officer, we visited The Hague on 14 and 15 April. We had meetings with the Embassy, the police (both Municipal and State) and carried out a detailed reconnaissance of the Kurhaus hotel at Scheveningen, the Government Conference Centre at the Ministry of Foreign Affairs, the Residence and the Hotel des Indes.

4. a) General

The Dutch authorities are planning on all official delegations, including Heads of Government and Ministers for Foreign Affairs staying in the Kurhaus hotel. Travelling by car, escorted and along closed roads to the meetings in the Conference Centre (14 minute journey). Protected vehicles would be provided for Heads of Government and those Ministers at high risk. The Dutch have yet to focus on the general arrangements and it was not possible to obtain much detail. There will be two other road journeys - to The Queen's lunch on the 26 June and a lunch in the City Hall that evening.

SECABJ

CONFIDENTIAL

b) The Kurhaus Hotel

Stands alone on the Scheveningen sea front but is in close proximity to other buildings, especially side walk cafés either side of the entrance forecourt and residential flats on the opposite side of the road. The building is about 100 years old, gutted in 1931 for modernisation and rooms on the second floor of the central area have been virtually demolished so that suites for the Heads of Government can be built. Workmen etc are at work now but they are not expected to complete until 7 June at the earliest.

c) The disturbing factors concerning this hotel from a security point of view are summarised as follows:

- 1) There is only one employee of the hotel concerned exclusively with security. As a result goods entering the hotel are not examined even on a random basis.
- 2) The workmen building the suites know why they are being built but neither they or anyone else are aware of the allocation. Neither the workmen or their bags/tools are being checked.
- 3) The hotel (254 rooms) will remain open to the general public until mid-day on 25 June. It is not possible to physically search this hotel to an acceptable standard in the 12 hours or so remaining before official delegations arrive. Although the police will have firm control internally and externally from mid-day on the 25th it is too late.
- 4) There is a great deal of glass internally, commencing with the vast cupola suspended from the topmost wooden latticé work in the roof covering the main Salon to the glass walls of the sea facing restaurant.
- 5) The 230 staff are very mixed in origin which must make it extremely difficult to determine their antecedents.
- 6) The Casino which is an integral part of the hotel will remain open to the general public although they are considering using another entrance.

d) The Residence

This is the obvious alternative for accommodation purposes. It stands alone in its own grounds with a remote controlled substantial front gate giving access to a driveway leading to the side facing front door. The

front fence is sheet metal plated and there is a peripheral brick wall, which is scaleable. The grounds are lighted and internally controlled flood lighting can provide additional illumination. Most ground floor windows have grilles and doors are alarmed. Alarm buttons are located at strategic points, there is a "safe area" on the first floor. Upstairs windows have wooden shutters that can be closed and downstairs rear windows have electric motor driven metal shutters. There is a direct telephone to the police and CCTV coverage around the house.

e) The attractive features of the Residence from a security point of view are:

- i) It is a controlled building and has been since it was first occupied some 14 months ago. It consistently attracts police attention and there is a police post outside and manned when HMA is in residence.
- ii) The building is secure and there is a wide range of installed security devices.
- iii) The Residence is some 7 minutes drive from the Conference Centre and near to other city locations.

f) Police Arrangements

During our discussions with Commissioner Frencken, who will be responsible for all police arrangements, he made it clear that their resources would be fully committed to the Kurhaus hotel and the routes between. He indicated that it would be difficult to provide adequate road escort and traffic control arrangements for anyone not staying in the designated hotel. This is a real problem in The Hague where there are many street intersections and traffic light phasing that is unduly long. One can be halted at a red traffic light for in excess of 2 minutes which has inherent security considerations.

CONFIDENTIAL

g) Summary

The early stages of the police planning did not provide us with an adequate basis for negotiation. It is possible that in a month's time the police may be better disposed to consider separate arrangements, were the Residence to be used. Other Heads of Government may also decide not to stay at the Kurhaus hotel, which will cause the Dutch authorities to make alternative arrangements for separate journeys. As we were the first reconnaissance party to visit, the arrangements in their outline stage are somewhat inflexible.

**POSSIBLE INVITATION TO THE PRIME
MINISTER TO SWITCH ON THE IMPROVED
BBC TV SIGNAL IN THE NETHERLANDS**

Thank you for your letter of 11 April asking whether the Prime Minister would be prepared to perform the inauguration ceremony for switching on the new improved reception of BBC television in the Netherlands. The proposal was that she should do so in the margins of the European Council in the Hague.

I do not think this would be wise. All sorts of untoward and unexpected things happen at European Councils. We might have to cancel the Prime Minister's participation at the last moment. Would you please convey her regrets.

Possible Invitation to the Prime Minister to Switch
on the Improved BBC TV Signal in The Netherlands

Casema, the largest cable television company in the Netherlands, have asked whether the Prime Minister would be prepared to perform the inauguration ceremony of switching on the new improved reception of BBC television in the Netherlands in the margin of the European Council meeting in The Hague in June.

Casema provisionally plan to hold the ceremony at about 6pm on 26 June at a Conference Centre about 15 minutes from the European Council venue. The provisional European Council programme provides for the afternoon session to finish at 6pm and the Dutch Prime Minister to give a dinner that evening at 8pm. The inauguration ceremony is likely to last about an hour, but it would not be necessary for the Prime Minister to be present for more than the first half hour, which it is proposed might include short speeches by the Mayors of Rotterdam and The Hague, the Managing Director of Casema, a BBC representative (probably the Chairman, Mr Stuart Young) and some concluding words from the Prime Minister.

In view of the advance publicity for the inauguration, which the organisers intend to set in motion at the end of April, Casema have said that if there is any risk of the Prime Minister not being able to carry out the engagement they would prefer not to pursue the idea of inviting her. If the Prime Minister declined to attend, the ceremony would probably be held at a later date by the Mayors of Rotterdam and The Hague, the two areas where the improved signal will first be available.

Improved reception of BBC television in the Netherlands will be another important step towards raising the British profile in Europe and ensuring that British news and views become regarded as an inherent part of everyday life on the continent. I realise that European Council programmes are

/tight

tight and that there is always a danger of peripheral engagements having to be cancelled because of the unpredictability of the proceedings. Nevertheless we think the opportunity for promoting Britain would be well worthwhile. The BBC are aware of Casema's wish to invite the Prime Minister and would of course be very much in favour of her participation.

I should be grateful if you could let me know if the Prime Minister would be prepared to perform the inauguration ceremony and whether we can advise the Dutch organisers, Casema, to issue a formal invitation.

Yours ever,

R N Culshaw
