

THE GOVERNOR

Copy to Mr Loehnis

I learned today from Professor Griffiths two points of interest about the Prime Minister and Europe:

- (i) She is apparently giving a major speech shortly in Bruges, though for security reasons this has not yet been given publicity. At present she has it in mind to use the occasion to try to lead the Community away from closer integration towards being a "loose confederacy".
- (ii) She is apparently asking questions in No 10 about the possibility of our moving from full membership of the Community to an "associated" membership.
