14th March, 1984.

To the Adopters of the PARITSKY family

Dear Adopter,

URGENT FOR IMMEDIATE ATTENTION ALEXANDER PARITSKY SENTENCED TO SIX MONTHS IN PRISON WITHIN THE LABOUR CAMP.

It appears that the Soviet authorities are attempting to put obstacles in the way of Alexander Paritsky's release which is due this August.

He has been serving three years of hell in his slave labour camp and we now learn that he has been kept in solitary confinement since January 24th for allegedly breaking regulations. This allegation was based on the testimony of three other prisoners who have been promised early release if they testified against Alexander. We understand that Alexander has been transferred to the inner prison of the camp and is being held there until he finishes his sentence in August.

Last December he was released from hospital after being treated for high blood pressure. The doctor classified Paritsky as an invalid of the third degree and recommended that he be given lighter work. His medical condition stems directly from a heart attack he had sustained the previous year. Since he was released from hospital last December there have been no complaints about his behaviour. Nevertheless, we now hear that he is being punished in solitary confinement in the special prison in his labour camp.

Polina Paritsky was able to contact friends in the West and inform them that she is gravely concerned that there could be a further trial. According to a new Soviet law, which has recently come into existence it is not even necessary for a prisoner to stand trial: the governor of any prison now has the authority to extend any prison sentence on whatever pretext he chooses.

Please would you send letters of protest to the Soviet Ambassador and the Camp Commandant and letters of support to Polina at the following addresses:-
