April. COP 2/4.

Jp.034

Mr Powell

East-West Relations

At some point in the next few weeks when she has a moment, the Prime Minister may like to read the attached report of recent discussions between the Danes and a Soviet academic from the Soviet Institute of the USA and Canada. (NOT TO BE FILED)

2. The talk is entertaining and revealing on basic Soviet attitudes: the blame lies entirely on the Americans - they forced the Russians to arm: Soviet descriptions of the West as wicked reflect scientific fact: Western strictures on the Soviet Union are fantasy: and so on. The final two sentences of the report sum it up.

3. You will see in paragraph 2 how the Danes used the Prime Minister's point on the fact that the Americans did not exploit the atomic monopoly while they had it.
