Mr. Erdoğan Uğur

Thank you very much for inviting me to the Water Treatment Plant today. It was a wonderful opportunity to learn about all you are doing to ensure that the citizens of Ankara have access to something of such fundamental importance to all of us - good, clean water. It was a fascinating tour, and I am deeply grateful to you and all your colleagues at the Plant for the welcome they gave me and for the painstaking explanations of their work.

Yours sincerely  
David Hoare
